MORE IPCS RAVE ABOUT GBS 2019

Erika Lőrincz (Romania):

Brent Willis, the New Age CEO, opened the event and assured me right away that we are the best of the world! We should be grateful because we can be part of something new and successful.

Adam Olsen, Marketing Communications Director, talked about the beginnings in 1996 when Morinda started a health revolution based on a legend which became our important legacy. Morinda started the superfruit era with the TNJ breakthrough. What is the future? Tahitian Noni + CBD, which does not only work from the outside, but from the inside too.

The 'NHANCED brand also supports growth. We have talented researchers and scientific background behind each product.

Jeff Johnson and Claudio Aguiar talked about the New Age business system, part of which are the loyal customers, engaged and active IPCs, and leaders with vision. The company provides tools to us which we can utilize to take our business to the next level. We receive content that takes us closer to our goal.

The Times Square event was probably the most uplifting part of the GBS, to be part of a historical event. This filled all IPCs with excitement. More than 1,000 engaged IPCs stood in blue t-shirts at the square in front of the Nasdaq building, not taking their eyes off the LED screen, watching the closing bell ceremony.

Mária Keresztes (Romania):

"I am very grateful that I could participate in GBS in New York. Persistent work always brings results! It was a great pleasure to enjoy the luxury, meet upline members and be among the firsts to hear about the new opportunities. I am looking forward to having

the new products, especially the CBD. I was very proud to be part of the Nasdaq closing and that I am a partner of NewAge.

I am very motivated to be there in Tahiti, under the noni trees."

I think it is a must to participate in GBS because that is the place where you can feel the positive atmosphere vibrate!

The gala dinner was amazing. It was uplifting to talk to J.R.

Wadsworth and Iván Pálinszki personally and to set goals together.

I was happy and proud to receive recognition at the stage and I am looking forward to Switzerland to clap for my IPCs and to be proud of them. I am fully convinced that again we will achieve great success in Romania and it is fantastic that the company supports it!

"New Age, New Life, New Opportunity" – this is my motto!

I can't wait to share the Centurion program with my downline and ask them to join this program with me! I can't wait to hear and know about the expansion project. The Philippines are my top priority new market with the expansion project because there are so many Filipino workers in Taiwan. I

can communicate with them and provide them another career opportunity once their employment contract is due in Taiwan and they return to the Philippines. They can be their own bosses when they return to their countries.

Li Ling Hsu (Taiwan):

I can feel that our company is becoming more professional. Brent shared his vision and goal. I am assured that we will become unbeatable. I am glad that Brent appeared at the closing bell ceremony so that our company could be

seen by the world! I want to share the Centurion program with my downline. I am proud that we are standing on the giant's shoulders, I want to make sure more people can get on the successful train track!

so comfortable and satisfied and even a bit proud of myself and my team.

During the event, I felt a strong passion from IPCs from all over the world for a new business plan, and I noticed that a lot of people were helping me expand my business. I just hope that the new products will be imported to Korea soon. Thank you, New Age, for creating a fast and convenient IT service so that we can communicate with consumers effectively and introduce our products fast online.

great event as a team. I was just so happy and deeply appreciated New Age for this great opportunity.

When I was in Times Square for the Nasdaq closing market bell ceremony, I remembered people around me saying that our business is impossible. But my team and me have never given up; we've kept going forward despite whatever they said because we believed in ourselves and Morinda. Time went quick. Now, we have watched this

Through knowledge that I gained from the GBS event, I will promote New Age products online every day. Firstly, I will share with potential consumers that New Age is listed on the Nasdaq on my blog and then I will introduce the excellence of TeMana Silk products via social media. I will also use Instagram to promote products to reach young people. My main target audience is young people who drink TNJ. I'm planning to introduce Silk products to them.

I just hope I can get more younger consumers online. If they like our product, I'm sure, we will get massive virality online and becoming a market leader in a matter of time.

Lee Gillye (Korea):

Thank you for inviting me to GBS in New York. I was so excited because it was my first time attending GBS since Morinda merged with New Age.

Lee Sung Hee (Korea):

This was my first time attending GBS. The event was amazing and full of excitement. I already miss being there.

Choyoung Lee (Korea):

Thank you for giving me this great opportunity. At the event, I felt that people love our products, and I felt their great passion. IPCs coming from all over the world inspired me so much, making me decide to dedicate my life to New Age.

During the GBS event, we saw a great vision of new products. I'm so excited to share them with people online. I hope I can be like the IPC leaders leading their market successfully. In particular, the moment when Park Young-Hwa and Jwa Jae-Wook appeared on the advertising display screen

situated at the Nasdaq building, my heart started to run, getting me inspired so much. It was a big moment to me, as I realized what I should do or what I want to become. I really want to be like them. Becoming a market leader leading the whole industry, I want to share my story with other IPCs.

I just want to say thank you for giving me this amazing opportunity and inspiration. I love Morinda, and I love New Age.

Ranto Gunawan (Indonesia):

Global Business Submit New York 2019 has just passed. The echo is still very close and real.

Personally, I am very grateful to have participated in the whole series of activities. All information provided was very much needed for IPCs.

The development of New Age products is truly amazing. First, 'NHANCED Cell Defense is a basic need for all people in the world. Therefore, this product is needed by anyone and anywhere, especially adults.

In addition to the new Cell Defense product, there is another fantastic product launched at the 2019 GBS New York event. Yes, the Advanced CBD product is named.

At first I was skeptical about the legality of the CBD, because it was sourced from cannabis plants. After getting more detailed information at the Global Business Submit event, I also understood more. This product will be a booming need throughout the world.

Another thing that is amazing about the Global Business Submit New York 2019 event is the Closing Bell at Nasdaq Office. Because NewAge shares have been on the American stock exchange, the NewAge company has become a very open company.

I am very proud to be able to watch in house the closing of the NASDAQ ring bell, which is very rare for this opportunity to be followed by people like me.

Rifqy Tri Hardjo (Indonesia):

Setting foot for the first time to the American continent and enjoying the atmosphere is one of my dreams come true through Morinda/New

Age. Located in the heart of Manhattan, New York, GBS 2019 took place with a classy hotel location that combined business and entertainment events. Plus, me and my wife could interact directly with the founder, CEO, executives, top leaders, and also special guests Miss Tahiti, Miss France and Jackie Lee. What a great moment in our life.

GBS 2019 shows that this company continues to skyrocket and innovate through breakthroughs that are extraordinary with business opportunities that are open to anyone who wants to take advantage of this wave. The announcement of the latest product launch will be a new income stream

that meets market needs segmentally.

The New Age era is now underway with many additions ranging from products to spectacular new bonus programs like Centurion!

I will disseminate the experience and information from GBS 2019 on a massive scale so that anyone can feel and benefit from real business opportunities with Morinda/New Age. Keep following your dreams and see you at the top.

Us magnam que adionserae nis earumet, nobit rernatur mi, consequ aspicat.

Leonardo Arie Wibowo (Indonesia):

At New York GBS, we felt a big shift in Morinda.

It is undeniable that this time we really felt the change. Morinda has been anchored in a mothership called New Age and has even become a global New Age system called omni-channel marketing.

Morinda is becoming better and better. New Age is a future opportunity that is modern

and attractive.

The closing bell event at Nasdaq shows the world how we are very ready and confident with our strength to go public. We are very confident with our unique and competitive advantage to dominate the global market.

Welcome to the New Age!
