## In this issue...

- Morinda millionaire has clear vision for 2019
- Morinda Life memories
- Three challenge packs promise new income streams

## Morinda millionaire has clear vision for 2019

**Sign-up Date: 16 January 2003**

**Highest Title: Double Diamond Pearl  
One Million Dollar Club Member**

Jenet Sun is kind, confident, and driven. As a child, her persistence helped her work to swim all the way across the harbor near her Chinese home. As a young adult, she built a stellar catering career, but she wanted more. So, she moved to the United States with less than \$10 in her pocket and a dream to run a business, purchase a home, and create her dream life.

Jenet started purchasing Tahitian Noni Juice to be a good friend to her eventual sponsor, Vicky Chen. She never drank the juice, but Vicky kept coming back and Jenet kept trying to be nice by buying a bottle or two. After several months, she was working late with nothing to eat. Her eyes fell on the noni juice sitting in the corner, so she tried it. She HATED it, but was so famished, she drank three-fourths of a bottle. The next morning, she woke up feeling full of energy, having

slept better than ever. Jenet has been drinking Tahitian Noni Juice ever since. Vicky's incredible persistence was the start of Jenet's Morinda story.

When talking about noni, Jenet says "[it] can help so many people! Not only people looking for a healthier lifestyle, but also those who are leading a healthy lifestyle. . . . So many people want this and we need to make sure the word gets out! People are waiting for us to help them and we need to

be there for them. We are here to change the world with Tahitian Noni Juice!"

Jenet works relentlessly to share that message with everyone. She was in attendance at the recent Leadership Circle event and shared her excitement about the great opportunity available now. She said, "I can't just focus my excitement on one thing, but if I had to, I'd point to the stock program. The idea that I can own shares in this company makes me feel like I am part of something huge. I know exactly where I am headed in 2019, my vision is clear."

## MORINDA LIFE MEMORIES

Morinda offers a robust travel program each year. Hang Nguyen Thi of Vietnam has consistently earned Morinda Life Points and been able to experience new and exciting locations around the globe as she has built her business. Because of her status as a world traveler, we asked her to share some of her favorite experiences. She is pictured here with other Vietnamese IPCs in Japan for Global Business Summit and in the Mediterranean with Kelly Olsen. Here is what she said.

"There are so many experiences that are imprinted on my mind from our recent Discover Tahiti Cruise. I think one of the most memorable came when I attended a meeting with some of the native Tahitians. I then got seasick and found myself staggering around the ship. I was surprised the next day, during our buffet dinner, one of Morinda's leaders recognized me, saw how I was feeling and made room for me to pass by. He took time to speak with me and gave suggestions for my seasickness. This is such a small moment, a small memory, but it left an unforgettable impression of love and kindness.

"I'll share one more memory from our 2018 European Cruise. The very last day, our

Vietnamese delegation was lining up to prepare for our transportation to the airport. I was busy preparing luggage and boarding the bus, when suddenly, our Chief Marketing Officer appeared, shaking hands to say goodbye. I stood immediately and was so surprised that I didn't even think to capture a photo of the moment. My souvenir of that memory was a tight handshake. It was so touching. What an example for a busy leader who could be troubled to make an appearance to say goodbye to everyone. I really admire the heart that showed, the closeness and sincerity for distributors.

"Morinda events make for truly unforgettable memories!"

## JAPANESE IPC STARTS OVER WITH SUBSIDIARY ACCOUNT

Japanese IPC Manami Imai qualified as a Level 1 Area Developer in 2015. Reaching that goal meant she was granted a subsidiary account, a second account through which she could earn additional commissions. After much consideration, she determined she would like to set the example for the team she was building and worked to build that second account and, through it, become Pearl a second time. It took great planning and grit, but Manami Imai did it, and here's what she said after the fact. To see a video of Manami Imai, telling her story in her own words, [click here](#).

"I had first advanced to Pearl with my main account. . . . I was considering how to use this new [subsidiary] account and thought that if I went back to the beginning and enthusiastically built a new organization, I could find new people and new business partners. . . .

"I thought that building a new network would lead me to advance to Diamond Pearl. . . . after considering how I could get going and the example I could show my group, I decided to start from scratch and build a new network.

"The best thing I experienced by building a new Pearl organization again was that I was able to add many new members to my group.

"I want to do this again. I want to remember what it's like to be a beginner, to recruit and sponsor new people, and enjoy a happy Morinda life with them."

## THREE CHALLENGE PACKS PROMISE NEW INCOME STREAMS

Jackie Lee is sponsoring three new challenge packs: 14 Days to Beautiful Skin, 30 Days to Healthy Skin, and the Miss Tahiti Makeover. Each pack offers a comprehensive product experience with extra tips from Jackie about how to use the product to greatest effect. Upon completion of any one of these challenges, participants receive a free gift. What's more, IPCs can earn an unlimited number of challenge bonuses for recruiting new customers and IPCs to participate in and complete any of these challenges. One IPC decided to utilize last year's challenge to expand her network and this is what happened.

Taiwanese IPC Li-Ling Hsu works closely with her downline to build multiple income streams. One of her favorites from the last year came in the form of Jackie Lee's 14-day Challenge Pack. She started by purchasing a pack for herself and was impressed with the extra tips and tricks Jackie shared for beautiful skin.

Li-Ling Hsu started posting on several social media networks about the results she was having and got her business partners to participate in the challenge too. Each of them completed the challenge, then they worked to successfully promote and

sell these packs to both new and existing customers.

Li-Ling Hsu is excited about the expanding opportunities with three challenge packs available. She said she and her team have created an intensive home party schedule and are working to recruit three new IPCs at a time. They are working with those individuals to complete the challenges and benefit from the challenge bonuses available. This is one of many income streams available through Morinda and one that is helping this Taiwanese IPC build a thriving Morinda business.

## Noni + Collagen attracts business partners

IPCs around the world have seen great success as they have introduced this unique collagen product to customers and business partners. Adel Lukacs from Hungary sold over 200 Limited Time Offer packs and saw huge business growth as a result. Read on to experience her excitement about what this product has done for her business.

"I was very happy to learn that Morinda would be launching a Noni + Collagen product. I believe I was among the very first ones to taste this product, as we received a bottle in Tokyo as a gift during our 2018 Global Business Summit.

"When I returned home, I got the attention of a future business partner with this small bottle of collagen. When he tried it, he

immediately said yes to the business opportunity and then qualified as a new Pearl in just one month!

"Noni + Collagen has been such a great help to my business. It is because of this product and the limited time opportunity that I was able to advance in title to qualify as a Diamond Pearl. Thank you Morinda for the Noni + Collagen!"
